

CHIMNEY LINER CONSTRUCTION

DESCRIPTION

Calaveras Power Partners LP awarded Matrix Service a project for the construction of a 28-foot diameter chimney liner, which is 602 feet tall at their J.K. Spruce (JKS) Power Plant in San Antonio, TX. The coal-fired electric generating station owned by City Public Services' at Calaveras' site powers 750 MW of power. This is the 3rd stack at this power plant.
